The protection of our consumer's data is for us one of the most important part of our marketing activity. That's why we decided to entrust this area to professionals.

We have chosen Personal Data Protection Group (PDP Group Sp. z o.o.). Our choice was caused very long experience of PDP consultants in managing of protection of personal data. With a great pleasure I must say it was very good choice.

From the very beginning of our cooperation, specialists from PDP Group took all responsibilities for managing of personal data protection and it was clear they know exactly what to do to implement high level of data protection system.

Thanks to them we feel really safe in this range of our activity and with the great pleasure we can recommend "PDP Group Sp. z o.o." as a reliable partner.
